Director, FBI

SECURITY INDEX LIST

General

There is attached hereto a current list of the names of the individuals maintained in the Security Index. Names included in the main portion of the list are arranged alphabetically. Those individuals coming within three designated groups are listed on separate pages. Following each name is information reflecting the race, sex, birth date, Bureau file number and the Bureau field office covering the residence of the individual.

It is requested that this list be given utmost security.

Enclosure

YELLOW: Espionage section of the Special Section not included. There are no US Government employees included in this Security Index list and the three designated groups are:

Foreign Government Employees
United Nations Employees
Pro-Tito Yugoslavs

Re Kansas City letter 10/13/55 and Bulet
10/27/55 relative to the feasibility of placing a
Remington Rand Safe Cabinet in the Topeka, Kansas
Resident Agency for the storage of an additional
set of Security Index cards of subjects in the
Kansas City area.

Please be advised that it has been determined
that it will be possible to place this safe in the
Topeka Resident Agency, however, the Superintendent of
the Post Office Building at Topeka informs me that the
lobby and hall floors are of hollow clay tile and will
necessitate the planking of these floors for the move-
ment of the safe.

In view of this additional work, the estimate
of a minimum cost of \$35.00 for moving the safe from
Kansas City, Missouri, and placing it in the Topeka
Resident Agency will be increased to a minimum of
\$50.00.

UACB 11/29/55 this safe will be moved to
Topeka, Kansas, for the purpose as outlined above.

Re SAC Letter 54-30G and urlets dated 10-4-55 and 10-26-55,
Cincinnati airtel to Director dated 9-26-55.

All resident agencies in this field division
are one-man resident agencies with the exception of
Dayton, Columbus, and Portsmouth. The Portsmouth Resident
Agency is a two-man resident agency with 568 square
feet of assigned space in the United States Post Office
Building.

Col. [redacted], Deputy Director, Civil
Defense, Cincinnati, Ohio, has advised that although
Portsmouth is not presently designated as a target
area or critical target area, he expects that it will
be in the near future because of the location of the
Atomic Energy Plant there. *(P)*

It appears, therefore, that our choice from
the standpoint of security, of office space, location,
and manpower would be limited to Dayton or Columbus.
Since Dayton is equally accessible to either Columbus
or Cincinnati, we had chosen Dayton.

Unless advised to the contrary by the Bureau,
Dayton will remain the repository for the additional
set of security index cards.

Office Memorandum • UNITED STATES GOVERNMENT

DATE: 11-21-55

TO :

FROM : *W.W.*

SUBJECT: SECURITY INDEX LIST

The SAC, Quantico maintains a complete copy of the Security Index which is kept in current condition by transmittal to him of new cards prepared and information concerning cancellations and changes to be made on the Security Index cards. This list is maintained by him for safekeeping and for use in the event of an emergency should the Index at the Bureau become unavailable.

A complete Security Index list as of 11-15-55 has been prepared. Discussion has been had with SAC at Quantico and it has been mutually agreed that it is desirable to check this list against the Index maintained by him to eliminate the possibility of any discrepancies between the two. SAC has advised that he will be able to handle this check with his present personnel.

SAC should make pencil notations on the list being forwarded of any instances in which (1) a name on the list forwarded is not included in the Index maintained by him; (2) a name appears on the Index maintained by him which does not appear on the list forwarded; (3) instances in which names appear in different subdivisions on the two lists; and (4) any other discrepancies between the two lists which may come to light. Upon completion of such comparison the list forwarded with the appropriate notations in pencil thereon should be returned by SAC, Quantico marked for my attention.

ACTION: If you approve, this memorandum with a current Security Index list will be forwarded to SAC, Quantico.

Genl.

Re SAC Letter 55-57, dated 9/7/55, Paragraph Q,
and in list of ~~enclosures~~ to ~~letter~~

Further reference is made to Bureau letter of October 31, 1955, addressed to the SAC at Albany and which instructs that a supply of certain designated forms be maintained in the Resident Agency designated to house the extra set of Security Index Cards.

It is believed that a four-drawer safe-type cabinet with a combination lock is essential in order to provide proper security for the material which, it is contemplated, will be maintained at Harrisburg.

Accordingly, it is requested that the Bureau give further consideration to the request contained in my letter of September 12, 1955, to the effect that such a cabinet be provided for this purpose. The extra set of Security Index Cards and forms will be retained at this office until such time as a suitable safe-cabinet is provided.

PER MAL ATTNTION

11/29/55

WAR PLANS - FIELD R. LOCATION,
SECURITY INDEX, AND TRANSPORTATION
OF CARTOGRAPHIC MATERIAL (S)

ReBulet to Albany with a copy to NYO 10/31/55 captioned as above. Also referenced No Number SAC letter 11/21/50, captioned "Date of"; ReBulet to Albany with a copy to NYO, 4/1/52, captioned "Emergency Detention Program, Forms and Warrants"; and No Number SAC letter "R", series 1952, 7/30/52, captioned "Emergency Detention Program Survey." (u)

ReBulet 10/31/55 instructing the NYO to forward to the Resident Agency selected for the storage of an extra set of SI cards, (the Poughkeepsie Resident Agency) a sufficient supply of Detain forms. As of 10/21/55 there were 2,748 SI subjects in the NYO and it is, therefore, felt that sufficient forms for 3,000 such subjects should be sent to Poughkeepsie. (S)

In order to comply with instructions set out in the above referenced SAC letters and Bureau letter 4/1/52, it will be necessary to send to the Poughkeepsie Resident Agency the following number of forms contained in 3,000 manila envelopes. (S)

- 9,000 copies of the Master Warrant of Arrest
- 16,000 copies of FD-167
- 15,000 copies of FD-168
- 15,000 copies of FD-169
- 3,000 copies of FD-170

(u) G

In addition the NYO intends to send to Poughkeepsie 200 copies of the Master Search Warrant, one carton (3,300 copies) of the Presidential Warrant of Arrest, and one carton (2,700 copies) of the Presidential Search Warrant which amounts to one-half the supply now on hand in the NYO. (S)

A survey disclosed that a total of 17 file drawers will be needed to hold all of the forms.

RM

SEE NY 11-17200-218-822

- 1- New York (100-17061) (Security Index)
- 1- New York (100-17069-A) (+ other)
- 1- New York (100-17069-B) (1 FOA/P)
- 1- New York (cc-70-6)

J. MCGILL

11/29/55

As may be seen from the above, it will not be possible to store these forms in the fireproof file cabinet with the three way combination lock which the NYO is furnishing to the Poughkeepsie Resident Agency to hold the extra set of SI cards and copies of the Prodip and Detcom Programs. (S)

The NYO, therefore, is planning to send to the Poughkeepsie Resident Agency for the storage of the above Detcom forms four five-drawer or five four-drawer file cabinets equipped with locks. (SJ)

The NYO will attempt to obtain these cabinets from the General Services Administration which will be asked to supply cabinets which cannot be unlocked by keys in common use in the FBI or other governmental agencies. (W)

However, inasmuch as the General Services Administration may not have such lock type file cabinets available, it would be appreciated if the Bureau would advise the NYO whether the Bureau is able to supply the required number of file cabinets having locks which cannot be opened by keys in common use in the FBI or other Governmental agencies, providing such means of storage of Detcom forms is satisfactory with the Bureau. (u)

In view of the fact that all file cabinets may have to be shipped to Poughkeepsie from NYC, the NYO is deferring shipment of the above fireproof file cabinet to Poughkeepsie until the question of storage facilities for the Detcom forms is settled. For the information of the Bureau, preliminary inquiries to NYC shippers indicate it will be "expensive" to ship the above fireproof file cabinet to Poughkeepsie. None of these shippers furnished an estimate of the actual cost of such transportation during these initial contacts. (S)

Two extra copies of this letter are being forwarded to the Bureau so that the Bureau may have sufficient copies for all of the case files concerned, if same is deemed necessary. (u)

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI ([REDACTED]
FROM : SAC, Buffalo ([REDACTED]
SUBJECT: SECURITY INDEX

DATE: 10-3-55

ReBulet to Albany September 19, 1955.

The Security Index List is being enclosed herewith. It has been checked against the Security Index in the Buffalo Office and appropriate notations have been made on the list to reconcile it with the Buffalo Security Index. It is noted that with reference to [REDACTED], New York is now office of origin in this case and the additional SI Card has been forwarded to that office. OK

The additional set of cards will be kept in the Rochester Resident Agency. However, before the cards are sent to this office, it will be necessary to obtain a safe type file cabinet such as the Herring Hall Marvin Cabinet which is listed under GSA Item #26-C2897-355. It is noted that the local representative of the Herring Hall Marvin Company has advised this office that a two-drawer letter-size cabinet similar to the above may be purchased locally at a cost of \$120.00, plus approximately nine dollars in delivery charges. The government does not have a contract with the Herring Hall Marvin Company, according to the representative, for this type two-drawer cabinet.

It is requested that the Bureau arrange to have a safe cabinet furnished to the Buffalo Office or authorize the Buffalo Office to purchase the two-drawer type locally. In the interest of economy it is felt that the two-drawer cabinet probably would be sufficient to maintain the cards and other material pertinent to the war plans and the DETCOM program in a safe place.

fB This is for your information.

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: December 9,
1955

FROM :

Sergeant, Fullex - General

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
BufileSYNOPSIS:

Each month, we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications Status of these cases as of November 30, 1955, is set forth herein.

In November, there was an increase in pending active matters in the entire field in the security classifications from 15,068 to 15,315. Delinquent matters decreased from 2,908 to 2,760. The percentage of delinquent matters decreased from 19.9% to 18%.

Letters are being sent to the large offices indicated by asterisks on page four and to the smaller offices indicated by asterisks on page five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the December, 1955, administrative reports.

Memorandum for Mr.**DETAILS:**

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The November, 1955, administrative reports from all offices reflect that the total pending active matters in the classifications and increased from 15,068 to 15,315. The delinquent items decreased from 2,908 to 2,760. The percentage of delinquent matters decreased from 19.9% to 18%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

Status of Security Work in the Remaining 40 Offices

The remaining 40 offices are listed according to the percentage of delinquency on October 31, 1955, in total matters in classifications. These statistics reflect the progress during November, 1955. It should be noted that many of the smaller offices have no pending matters in classifications and their entire pending backlog is in classification matters.

Letters to the Field

Letters are being sent to the large offices indicated by asterisks on page four and to the smaller offices indicated by asterisks on page five herein. A total of nine letters is being sent to the field in this matter, commenting upon existing delinquency and pointing out the necessity of bringing security cases to and maintaining them at proper levels.

SUBJECT: SECURITY INDEX - ~~Geosid~~
REPORTS - RE-EVALUATION OF CASES

Present instructions call for submission of annual investigative reports in all Security Index cases (top functionaries quarterly, key figures and subjects employed in key facilities semiannually). Each such case, when brought up to date, is to be critically analyzed in the light of the new Security Index criteria. Administrative pages of such reports are to indicate that subject is included in the Security Index and that data appearing on the Security Index card is current or, if a change is required, that a Form FD-122 has been submitted.

While these provisions are specifically set forth in the Manual of Instructions, it is believed that the recent conclusion of the Security Index Review program makes it desirable that we reiterate to the field that it is their responsibility at all times to be sure that cases remaining on the Security Index properly meet the new criteria. This is particularly necessary since the passage of time may make a case now falling within the criteria become one which does not meet the criteria in the future. For this reason, it is believed that the field should be instructed to re-evaluate the case not only at the time of submission of the annual investigative report but at six-month intervals when the subject's residence and employment are verified and instructed to include on the administrative pages of reports a statement to the effect that the case has been re-evaluated in the light of the Security Index criteria and still fits those criteria.

A proposed SAC Letter and Manual change are attached.

RECOMMENDATION:

It is recommended that the attached SAC Letter and Manual change be approved and that the SAC Letter be sent to the field.

KY FACILITIES

ADJUSTMENT TO KY FACILITIES LIST

The Department of Defense has recently issued a revised key facilities list designated as KFL(J). Appropriate State Sections of this new KFL(J) were disseminated to the field as attachments to SAC Letter 55-7C.

Attached for the information of the Washington Field Office is one copy each of page nine of the Maryland State Section and page eleven of the Virginia State Section of KFL(J) reflecting facilities in these states located in the District of Columbia metropolitan area.

Attached for the information of the Baltimore and Richmond Office is one copy each of the District of Columbia Section of KFL(J).

The above portions of the K.L are furnished interstate offices to eliminate correspondence to determine if Security Index subjects and other individuals residing in one field office territory but employed in another field office territory may be employed in a key facility.

Re: Bulletin to New Haven dated 10-11-55, and Bulletin to Albany dated 10-31-55, captioned as above, and Bulletin to Albany dated 9-19-55, captioned, "SECURITY INDEX".

This is to advise that the additional set of Security Index cards forwarded to the New Haven Office have been set up in accordance with Bureau instructions as outlined in referenced Bureau letters.

The additional set of Security Index cards for this office have been placed in a locked cabinet, which cabinet is located in a locked enclosure known as the "vault", between the two rooms of the Resident Agency in the Post Office Building in Bridgeport, Conn.

The responsibility for the maintenance of this set of Security Index cards is assigned to the Senior Resident Agent at Bridgeport, Conn., or in his absence the individual acting for him. The necessary personnel have been thoroughly briefed concerning the maintenance and storage of these cards, and the absolute necessity of keeping them current.

The New Haven Detcom Survey (Bulet dated 9-27-52, which appears in Bufile) has been amended to include information concerning the maintenance of this extra set of Security Index cards so as to outline the complete Detcom Program in one place, in accordance with previous Bureau instructions.

a leadership capacity in front groups within the last three years. It is, therefore, apparent that an individual who presently falls within these criteria may in the future not meet these standards if time elapses without obtaining information as to additional subversive activities by him. Consequently, it is your continuing responsibility at all times to assure yourself that cases remaining in your Security Index are qualified cases under the criteria for such inclusion. Specifically, you should re-evaluate each case, not only each time it is reopened for the purpose of submitting a report, but at six-month intervals when the subject's residence and employment are verified. A notation to the effect that the case has been reviewed for the above purpose should be made in the file.

The administrative pages of all reports submitted concerning Security Index subjects shall contain a statement to the effect that the case has been re-evaluated in the light of the Security Index criteria and that the case still fits those criteria.

Very truly yours,

John Edgar Hoover

LIAISON WITH PASSPORT OFFICE,
DEPARTMENT OF STATE
Bufile

Pursuant to the request of the Passport Division, Department of State, we have been supplying periodically for the confidential use of that division a current list of the names of top functionaries and key figures for use as a check list before issuing U. S. passports. The last list furnished the Department of State was as of September 15, 1955.

There is attached hereto a current list of top functionaries and key figures to be furnished to the Liaison Section for delivery to Mr. [redacted], Deputy Director of the Passport Office.

This current list should be delivered personally to Mr. [redacted] with the definite understanding that the Bureau makes no recommendations as to the issuance or nonissuance of passports and the list be held in the strictest confidence by him at all times in his office safe. The old list should be picked up by the Liaison representative and destroyed and an appropriate notation made on this memorandum to that effect.

ACTION:

If you approve, this memorandum and the attached list should be forwarded to the Liaison Section for appropriate attention.

SUGJECT: SECURITY INDEX CARD STATISTICS

There are 12,883 persons represented in the security index (as of December 15, 1955). This is a net increase of 12 or one-tenth of 1 percent above last month. Of the total, 11,382 or 88.3% are communists.

The race of Chinese in the index is now shown separately in the race breakdown on the attached table.

A detailed table is attached in duplicate. The table shows as of December 15, 1955, the distribution of the subjects by field office, nationalistic tendencies, dangerousness, sex, race, and citizenship. Also, the number on "special lists" are shown. A key to abbreviations is attached.

DATE: December 15,
1955

FROM :

SUBJECT: SECURITY INDEX - Manual
RE-EVALUATION OF CASES

A. K. SAC Letter 55-76 dated December 13, 1955, in paragraph (O) provides that each Security Index case must be re-evaluated at six-month intervals when the residence and employment are verified to assure that the case remains qualified under Security Index criteria and that a notation to the effect that the case has been reviewed for this purpose shall be made in the file.

Attached is a proposed Manual change to incorporate these new instructions in the Manual of Instructions.

ACTION:

It is recommended that the attached Manual change be approved.

12-16-55

Office Memorandum • UNITED STATES GOVERNMENT

TO DIRECTOR, FBI
FROM SAC, LOS ANGELES
SUBJECT: WAR PLANS - FIELD RELOCATION, SECURITY INDEX

DATE: 12/16/55.

Rebulet 10/31/55, containing instructions with regard to the maintenance in a Resident Agency of Security Index cards.

As the Bureau was advised, the Security Index cards for this office will be maintained at the San Bernardino Resident Agency. The three rooms occupied by this Resident Agency in the Federal Building in San Bernardino are considered to have adequate security. However, in order to more fully insure that security will be maintained in view of the highly confidential nature of the material to be stored therein, it is believed desirable to install certain security measures.

It is anticipated the Security Index will be stored in the center room of the three room suite. There is one door from a corridor into this room and two additional doors opening into each of the other two rooms. There is one window facing the street. The additional security measures would consist of removing glass panels in the three doors and replacing them with wood panels, and installing a wire mesh grill over the window. Inside locks would be placed on all three doors.

This additional work would have to be contracted for by General Services Administration and an estimate of \$235.00 has been secured from them. This will not include installation of the locks which would be provided by this office. This estimate is based on having to contract for this work. If a wire mesh grill could be located as surplus in another Federal agency, this cost would be reduced by over \$100.00. In addition, General Services Administration may utilize their own labor to install the panels which also might reduce the cost.

In order that these additional measures may be taken promptly, it will be appreciated if the Bureau will authorize the expenditure of up to \$235.00 for installation of the above-described equipment in the Resident Agency at San Bernardino.

UNRECORDED

SAC, Los Angeles

December 27, 1955

Director, FBI

**WAR PLANS & FIELD RELOCATION,
SECURITY INDEX**

Reurlet dated December 16, 1955,
suggesting certain additional security measures
at the San Bernardino Resident Agency where a
set of Security Index cards will be maintained.

Your letter does not supply sufficiently
definite information to make a final determination
as to the necessity of these additional security
measures.

For example, it seems unlikely that it
would be feasible to place wood panels in the
corridor door if all other doors in the corridor
contain glass panels. In addition, the substitution
of wood panels for glass panels in the two doors
within your suite would seem to add little in the
way of deterrent to a burglary since, if access to
the suite has been gained, only a slightly larger
problem would be presented to a burglar. It is
presumed in this connection that the connecting
doors between the various rooms in your suite are
customarily kept locked.

You do not state whether your Resident
Agency suite is located on the ground floor of the
building. Even the problem of access to the outside
window would seem to make it unnecessary to protect
such window by a wire mesh grill.

The question of providing adequate security
to your Resident Agency space is, of course, one for
you to determine and it is noted that your letter
refuses that the space in question is considered to
have adequate security. If, after consideration of
the factors pointed out herein, you still feel that
additional measures are necessary, you should con-
sult the Bureau with detailed information as to
what steps, if any, therefore.

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO DIRECTOR, FBI (

DATE December 30, 1955

SAC, PITTSBURGH ()

✓ SUBJECT: EMERGENCY DETENTION PROGRAM SURVEY

Re No Number SAC Letter X dated 7-30-52 and mylet, 8-19-55.

The Detcom plans of this Division have been reviewed in accordance with instructions in referenced SAC Letter and are up to date.

By letter dated October 31, 1955, to SAC, Albany, captioned, "WAR PLANS - FIELD RELOCATION, SECURITY INDEX, AND TRANSPORTATION OF CRYPTOGRAPHIC MATERIALS," Bufile , the Bureau instructed that a sufficient supply of forms FD-167, FD-168, FD-169, FD-170, Master Warrants of Arrest, Master Search Warrants, Presidential Warrants of Arrest and Presidential Search Warrants be maintained in the Resident Agency wherein the extra set of security index cards is stored.

SAC Letter 55-57(Q) dated September 7, 1955, instructed that a copy of the Detcom Survey should also be maintained in this Resident Agency. The duplicate security index cards, an appropriate supply of apprehension forms, and a copy of the Detcom Survey are ready for transmittal to the Morgantown, W. Va., Resident Agency; however, this material has not been placed in this resident agency because it was first necessary to secure a suitable storage cabinet and combination lock so that the above material can be maintained in accordance with instructions contained in No Number SAC Letter dated November 1950, captioned, "Detcom."

The proper type storage cabinet for the above material has been recently forwarded by the Bureau to the Morgantown, W. Va., Resident Agency; however, the special combination lock therefor has not yet been received. When this lock is received, the above material will be transported to Morgantown, W. Va., and the Detcom Survey will be amended to show that this material is in the Morgantown, W. Va., Resident Agency.

Matters relating to the Detcom Program will continue to receive close supervision.

Office Memorandum • UNITED STATES GOVERN

TO : DIRECTOR, FBI () DATE: January ^{Mr. T}

FROM : SAC, NEW HAVEN

SUBJECT: EMERGENCY DETENTION PROGRAM SURVEY
NEW HAVEN DIVISION PERSONAL &
CONFIDENTIAL

Re SAC Letter X, series 1952, dated 7/30/52.

In accordance with Bureau instructions, the plans for putting into operation the emergency detention program in the New Haven Division have been completely reviewed and the program is current in all respects.

During the past six months, the Bureau has instructed that an additional set of Security Index cards be maintained in the New Haven Division at some suitable location, outside of headquarters city, from which location the captioned program could be operated, if necessary, in the advent of an emergency provided circumstances are such as to preclude the handling of the program from headquarters city. ^{GEN!}

In accordance with Bureau instructions, this extra set of Security Index cards has been set up in the Bridgeport Resident Agency and necessary personnel have been thoroughly briefed on the operation of this program so that the program could be handled from the Bridgeport Resident Agency if an emergency situation required it.

It may be further noted that the Detcom Survey is checked monthly and is kept current by submitting amended pages to the Bureau. In connection with this monthly check the Detcom Survey of the NIO has been amended to include the alternate plan for operating this program from Bridgeport if emergency conditions required it.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: January 11,
1956

FROM :

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
Bufile

SYNOPSIS:

Each month, we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications. Status of these cases as of December 31, 1955, is set forth herein.

In December, there was an increase in pending active matters in the entire field in the security classifications from 15,315 to 15,533. Delinquent matters decreased from 2,760 to 2,620. The percentage of delinquent matters decreased from 18% to 16.8%.

Letters are being sent to the large offices indicated by asterisks on page four and to the smaller offices indicated by asterisks on page five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the January, 1956, administrative reports.

Memorandum for Mr.**DETAILS:**

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The December, 1955, administrative reports from all offices reflect that the total pending active matters in the classifications and increased from 15,315 to 15,533. The delinquent items decreased from 2,760 to 2,620. The percentage of delinquent matters decreased from 18% to 16.8%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

Letters to the Field

Letters are being sent to the large offices indicated by asterisks on page four and to the smaller offices indicated by asterisks on page five herein. A total of five letters is being sent to the field in this matter, commenting upon existing delinquency and pointing out the necessity of bringing security cases to and maintaining them at proper levels.

UNRECORDED

DIRECTOR, FBI

1/3/56

SAC, KNOXVILLE

WAR PLANS - FIELD RELOCATION,
STORAGE OF SECURITY INDEX - Gen 1.

By routing slip dated 12/12/55 the Bureau advised us that one safe file cabinet, with bar lock, was being forwarded to our Resident Agency in Johnson City. It was forwarded and received, being delivered by the Mason and Dixon Line. As indicated by the attached statement, the shipping charges amounted to \$14.67 and the placing of the safe in the FBI Office involved a charge of \$7.50.

For the Bureau's information, our Resident Agency office is on the second floor of the Post Office Building in Johnson City and this building has no elevator, making it necessary that the Ferguson Transfer Company, Incorporated, who actually delivered the safe type cabinet, carry the cabinet manually to the second floor and down the corridor for installation in the Resident Agency.

We are doubtful of our ability to pay this charge of \$7.50 by voucher and we are also doubtful as to whether we have authority to pay this additional charge from the imprest fund, and the Bureau's advice is requested regarding the appropriate approach to be made in making this payment. In view of the weight of the safe and the difficulty in getting it up the stairs and into the room, it does not appear that the \$7.50 charge is disproportionate.

Transmitted herewith is the statement from the Mason and Dixon Line, bearing Pro number ~~████████~~, and the requisition, number 2752.

STANDARD FORM NO. 64
Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI () DATE: January 3, 1956
FROM : SAC, LOS ANGELES ()
SUBJECT: WAR PLANS - FIELD RELOCATION
SECURITY INDEX - Gen.

ReBulet December 27, 1955, re additional security measures suggested for the San Bernardino Resident Agency where a set of Security Index cards will be maintained.

The Bureau's views on this matter are appreciated. The suggestions for added security were made by this office in the belief that every precaution should be taken to protect the Security Index cards.

The space at San Bernardino consists of three rooms on the second floor of the Federal Building. The windows face the street; however, there is a ledge or balcony beneath the windows at the second floor elevation, which ledge runs along the entire side of the building. There are rooms occupied by other Federal agencies adjoining both sides of the FBI three-room suite. It is the intention of this office to place the Security Index cards in the center room of the three-room suite. It was the thought of this office that an unauthorized person could conceivably gain entrance to one of the rooms on either side of the FBI space; proceed along the ledge to the outside window of the FBI space and gain entrance through this medium.

The Bureau pointed out that if the suite was not on the ground floor it would seem to be unnecessary to protect the outside window with a wire mesh grill. This position has merit even with the physical setup described above since it would be practically impossible for any person to reach the second floor ledge from the street without use of extended ladders. In addition, it is noted that any unauthorized person gaining access to the second floor with the intent of burglarizing the FBI space would first have to break through one of the corridor doors.

Addition of wire mesh screen to the window would, therefore, be of little benefit if it is considered that a burglar could gain access by breaking wood or glass panels or forcing the locks on either the corridor or connecting doors to the FBI space or that of adjoining space.

UNRECORDED
1-3-56

LA

It is agreed that the substitution of wood panels for the glass panels in the two doors within the suite would add little in way of deterrent to an experienced burglar.

From a re-evaluation of the situation in the light of the Bureau's comments, it would appear sufficient to install additional bolt locks on the inside of the doors; i.e., the corridor door and the two connecting doors leading into the center room of the suite.

UACB, this will be done.

TRANSFER OF CRYPTOGRAPHIC MATERIALS
SAFE-TYPE FILE CABINET

Re Bureau routing slip 12/12/55 advising safe-type cabinet shipped to RA, Salem, 12/2/55. Same received 1/6/56 in damaged condition as follows:

Deep indented gouge in front upper drawer about 1 $\frac{1}{2}$ " x 8".

Metal binding at rear bottom of cabinet pulled loose so that insulation from inside appears to be shaken partly loose.

Long scratch into metal on left side toward top, curved, about $\frac{1}{2}$ " wide and 18" long.

Appropriate follow-up is being made with the Willamette Valley Transfer Co. which delivered cabinet to RA.

It is requested that the Bureau take appropriate action to make a claim for the damage done. In this connection there are transmitted herewith the original of Inspection of Lost or Damaged Freight invoice dated 1-6-56, copy of Pro No. P 89996, and copy of memo of SA dated 1-6-56 captioned SAFE FILING CABINET, SALEM RA.

10/10/55.

This office has now received a fireproof filing cabinet and a three position dial-type combination lock which it has placed in the Tulsa Resident Agency. An extra set of Security Index cards has been fully checked and set up in accordance with Bureau instructions. These cards have been furnished to the Tulsa Resident Agency, where they are currently maintained. In addition, the Senior Resident Agent has been furnished a sufficient supply of the following listed forms:

FD 167, Apprehension Notice and Register

FD 168, Receipt for Property

FD 169, Receipt for Apprehended Person

FD 170, Consent of Owner or Occupant to Permit Search of Premises

Master Warrant of Arrest

Master Search Warrant

Presidential Warrant of Arrest

Presidential Search Warrant

These forms are being maintained in the Tulsa Resident Agency in accordance with instructions contained in No Number SAC Letter dated 11/21/50 captioned DLTCOM.

Letter to SAC, Albany

In checking this list against your Security Index, the following items should be considered and handled as follows:

- (1) If the name of a subject on the list is not included in your Security Index, you should check that subject's case file to determine his correct Security Index status. An appropriate notation should be placed adjacent to the subject's name on the enclosed list reflecting the correct Security Index status for the subject. If his name should be deleted from the Bureau's Security Index, the notation should refer to the previous communication from your office which recommended cancellation. If you do not have a Security Index card for the subject and a card should be in your index, the notation should request the Bureau to forward cards to your office.
- (2) If this check discloses the names of subjects in your Security Index which do not appear on the list, the names of such subjects and the Bureau file number (where known) should be set forth on a separate sheet of paper with the date that the subject was recommended for inclusion in the Security Index. Instances of this nature will occur in those cases where subjects have recently been recommended for inclusion in the Index and were not included therein at the time of printing of the list but cards have subsequently been prepared at the Bureau. Instances of this nature may also occur in those cases where cancellation of a Security Index card has recently been recommended by you and you have not yet received Bureau authorization to cancel.
- (3) In checking the Special Section of your Security Index against the list, you should be certain that the subjects are in the same subdivision as those indicated on the list. Appropriate notations should be placed on the list if there are any discrepancies between your Special Section and the list.

Letter to SAC, Albany

(4) To avoid an increasing number of discrepancies between the list and your Security Index due to current changes being made in the Security Index, this check must be instituted immediately and completed within ten days. Upon completion, the Security Index list and appropriate notations should be returned to the Bureau by cover memorandum under instant caption.

Director, FBI

PERSONAL ATTENTION

O *TNIS - GFW*
SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to Bureau letter dated October 10, 1955, captioned "Communist Party, USA - Organization, Internal Security - C."

In referenced letter, the current trend toward more open activity on the part of the Communist Party was noted. You were instructed to take immediate steps to capitalize on this change in Party organizational activity by intensifying investigative efforts looking toward identification of all Party functionaries on national committees and commissions, district boards and commissions, state boards and commissions, regional, county, city, section and club levels.

Letter to SAC, New York

I feel that the current trend toward more open Communist Party activity affords us an excellent opportunity of not only increasing our coverage of organizational activity but of establishing the identities of the rank-and-file Party members. It is apparent that, until all Communist Party members have been identified and subjected to a complete investigation, we have not adequately discharged our basic responsibilities in the internal security field.

While I realize that we are presently conducting active investigation on many leaders of the Communist Party, particularly those leaders in the higher echelon of the Party, with a view toward penetrating the Communist fugitive apparatus, in efforts to further penetrate the underground apparatus and to increase our coverage of organizational activity, I feel that the functionaries on lower Party levels should also be the subjects of active investigation. Leaders on such levels as regional, county, city, section, and club, will have far greater contact with routine members of the Party than will the functionaries on higher levels in the organizational structure and, therefore, should afford us a greater opportunity to determine the identities of the rank-and-file members. With this thought in mind, I desire that immediate steps be taken by you to open cases and conduct active investigation on a selective basis of Party leaders on the organizational levels mentioned above. Investigative attention should be afforded those individuals most likely to have the greatest contact with the routine Communist Party members, such as section organizational secretaries and membership directors. It would, of course, follow that, if, through active investigation of the particular

Letter to SAC, New York

functionaries, the desired results are not being obtained, the cases should revert to a closed status, or pending inactive in the cases of Key Figures, and steps taken to initiate active investigation on other functionaries on the above levels.

In those areas in which the identities of officials on lower levels are unknown, the immediate objective should be directed toward establishing their identities, followed by active investigation of their activities.

At the present time, 1,057 individuals have been tabbed as Key Figures throughout the field. This number includes Key Figures in all basic revolutionary organizations. However, the great majority have been tabbed because of their leadership capacity in the Communist Party. Many of these cases are presently being afforded special investigative attention. However, I desire that at this time immediate steps be taken to place in a pending status all cases on Communist Key Figures currently active in the Party who have not been the subjects of active investigations during the past year. These cases should be afforded appropriate investigative attention as outlined above.

In order that the Bureau may follow your progress in this matter, you are instructed to submit a letter under the above caption by March 25, 1956, listing all cases opened and investigations initiated on Party officials from the regional level on down; however, do not list Key Figure cases placed in a pending active status. In addition, you are requested to set forth the number of cases developed on rank-and-file members as a result of the above instructions.

You are instructed to afford this matter your personal attention to insure that the Bureau is adequately discharging its responsibilities in the internal security field.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: January 25, 1956

FROM :

O *JULY - 66*
SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS
Bufile

Our letter of 10/10/55 advised all field offices of current trend to more open activity on part of Communist Party (C USA. We stressed the need to take immediate steps to capitalize on this trend by intensified investigative efforts looking toward identification of all Party functionaries from national committee down through club levels plus greater coverage of organizational activities.

In our coverage of CP activities, we have used and currently utilize: (1) Live informants. In areas in which the Party on lower levels has been active, the Party clubs have consisted of limited membership, normally three to five each, seriously hampering live informant coverage on a club level. (2) Technical and microphone surveillances. Very valuable source as now used, however, are utilized on a restrictive and selective basis. (3) Anonymous sources. Maintained under very tight control. These sources furnish valuable information, including Party registration information, but we do not desire to utilize on a promiscuous basis. (4) Active investigation and physical surveillances on top-flight leaders of the Party in efforts to locate the Communist fugitives and penetrate the underground. Physical surveillances have limitations because of manpower that would be involved if utilized extensively on club level.

Regardless of the above coverage, we feel that we should point out to the field our basic responsibilities in the internal security field of knowing who the Communists are, it being noted that, because of extreme security consciousness and very limited Party activity on lower levels during past few years, we feel that we do not now have sufficient knowledge of identities of rank-and-file members of the Party. We must devise ways and means of securing complete data regarding CP membership and insuring that current CP members have been investigated.

In view of recent trend toward more open CP activity part of CP, it is felt we are presented with excellent opportunity to increase our knowledge of rank-and-file membership of Party with this thought in mind. following recommendations are made.

Memorandum for Mr.

RECOMMENDATIONS:

(1) It is recommended that the field be instructed to initiate investigations on a selective basis of CP officials on the lower levels of the organizational structure, such as the regional, county, city, section and club levels, because it is felt that such leaders will have far greater contact with routine members of the Party and, through investigation of them, we will be afforded a greater opportunity of determining the identities of the rank-and-file Party members.

(2) It is recommended that the field be instructed to place in a pending status all cases on Communist Key Figures currently active in the Party who have not been the subjects of active investigations during the past year, the investigation of these individuals to be directed toward the same objective as outlined above. It is noted that the number of cases in this category is estimated to be relatively small inasmuch as we only have 1,057 Key Figures in all basic revolutionary organizations and many of these cases are presently being afforded special investigative attention.

copy of
If you approve, there is attached a proposed letter
to New York, copies to all field offices, containing
instructions in line with the above.

Office Memorandum • UNITED STATES GOVERNMENT

TO [REDACTED]

FROM [REDACTED]

DATE: January 5, 1956

SUBJECT: BUREAU WAR PLANS
AVAILABILITY OF COPIES OF
SUMMARY REPORTS IN SECURITY
INDEX CASES AT BUREAU ALLOCATION SITE

(S)

PURPOSE:

To reconsider feasibility of maintaining at Quantico summary reports and subsequent annual investigative reports on all Security Index cases for use in event of an emergency.

PREVIOUS CONSIDERATION:

This problem was previously considered by the Executives Conference on August 10, 1954, and September 13, 1954. At that time, the Executives Conference took into consideration the requirement by Office of Defense Mobilization that key agencies duplicate essential operating records in a repository outside of target areas for use under wartime conditions. The suggestion at that time was not adopted as it was felt that the duplicate set of Security Index cards and related documents which were being set up at [REDACTED] along with records in the field, should provide adequate controls during the first part of any war emergency which requires evacuation from Washington. At that time, we had approximately 26,000 Security Index subjects while today we have 12,900.

(S)

EXTENT OF DECENTRALIZATION OF ESSENTIAL RECORDS DEALING WITH SECURITY INDEX SUBJECTS:

A complete set of the Security Index is maintained at [REDACTED] along with fingerprint records and handwriting specimens in certain cases.

Memorandum for [redacted]

Field Decentralization (S)

In addition to the two sets of Security Index cards maintained in the headquarters city, each field office maintains at a Resident Agency a complete set of Security Index cards containing descriptions and, in most cases, photographs. (S)

In addition to the above, it is noted that copies of all security reports maintained at the Seat of Government are also maintained in the office of origin. (S)

ADVANTAGES:

The only advantage to the maintenance of the duplicate set of summary reports in Security Index cases at the Bureau's relocation site is to have such a set available in the event both the Seat of Government and a field office are destroyed by enemy action. [redacted] In this connection, it is noted that all field office cities, including the Seat of Government, with the exception of Butte, Montana, are listed by Civil Defense as critical target areas. (S)

In the event destruction of Seat of Government and a field office's records occurs simultaneously, we would be able to use the summary reports stored at [redacted] for the purposes of (1) hearings in the event the subject is apprehended and (2) leads in conducting fugitive investigations in the event such is necessary. (S)

DISADVANTAGES:

(1) Administrative Difficulties

To be effective, it will be necessary to maintain the reports at [redacted] in a current condition at all times. This entails constant changes due to receipt of additional reports, addition or deletion of individuals in the Security Index, changes in names and aliases used, and maintaining of

Memorandum for [redacted]

some type of index for ready use. Since annual reports are required in Security Index cases, there will be an increase in the number of reports at [redacted] constantly. Not only will this require additional clerical work at [redacted] but both clerical and supervisory work at the Seat of Government to keep the reports in a current (u) condition.

(2) Volume

We presently have 12,900 Security Index subjects. By May 1, 1956, the date New York is scheduled to complete the Summary Report Project, at least one summary report will have been submitted in each case. In the great majority of these cases, an average of two additional annual investigative reports have been submitted. It is, therefore, estimated that initially approximately 36,000 reports will have to be pulled from Bureau files and forwarded to [redacted] with an annual increase of an estimated 13,000 reports. (u)

(3) Expense

Based on figures supplied by Records Section, it is estimated that 94 five-drawer file cabinets will be needed immediately to handle the approximately 36,000 reports and to allow for normal expansion during the next few months. These file cabinets are not currently available and, if purchased, cost \$55 each or a total of \$5,225. It is further estimated that an additional 15 five-drawer file cabinets will be needed annually to handle the approximately 13,000 annual investigative reports that will be received. (u)

Based on first estimates furnished by the Records Section, the initial cost of pulling the reports from Bureau files is estimated at \$4,700. This

Memorandum for [REDACTED]

figure is based on an estimated 2,920 work hours utilizing the services of GS-3c employees at \$1.61 per hour. Maintenance cost thereafter is estimated at \$1,762 annually, approximately one-half of one GS-3 employee. (u)

STORAGE FACILITIES AVAILABLE AT [REDACTED]

Attic - 1,700 Square Feet of Space

This is a concrete floor covered by cork and composition flooring. It has one entrance and is considered a secure and safe place. Suitable lighting will have to be installed, plus an adequate cooling system. The only other secure available space in [REDACTED] is the gymnasium. However, it is in almost constant use. (u)

428 square feet of floor space will be needed initially to handle the 9f file cabinets with an estimated 68 square feet increase each year to take care of expansion. As noted above, 1,700 square feet of space are available. (u)

OBSERVATIONS:

It is realized that one of the most vital functions which the Bureau will be called upon to perform in event of an emergency is the apprehension of persons dangerous to the public safety. It is essential, therefore, that sufficient information be readily available under any conditions to enable us to accomplish this objective. The only certain way that this could be done is to have not only the summary reports of Security Index subjects but the entire files of all security-matter cases reproduced and stored in absolutely safe places. However, having available Security Index cards and summary reports in all Security Index cases would be of great assistance in carrying out our emergency detention duties. It is pointed out that we could not be called upon to utilize the reports kept in [REDACTED] unless both the Seat of Government and a field office were destroyed. (u)

Memorandum for [REDACTED]

It is to be noted that, if the summary reports are to be stored at [REDACTED] it will be necessary, in order to utilize them properly, that (1) they be set up according to file numbers, and (2) an adequate indexing system be established and maintained at [REDACTED] so that particular reports under a subject's name or aliases can be located. (u)

RECOMMENDATION:

It is recommended that summary reports and subsequent annual investigative reports on Security Index cases not be set up and maintained at [REDACTED] at the present time in view of the costs involved and the other factors set forth herein. (u)

AVAILABILITY OF COPIES OF SUMMARY
REPORTS IN SECURITY INDEX CASES
AT BUREAU RELOCATION SITE (S) general

*The Executives Conference, consisting of
Messrs.*

三三八七三〇

on January 25, 1950, again considered the question of whether copies of summary and investigative reports on Security Index subjects should be filed at [redacted]. This question was unfavorably considered by the Executives Conference in August and September, 1954, and was again reconsidered because of the reduction in the Security Index as a result of the Security Index Review project. (S)

Present Extent of Decentralization of Essential Records Dealing with Security Index Subjects

cards

A complete set of the Security Index is maintained at _____ along with fingerprint records and handwriting specimens in certain cases. In addition to the two sets of Security Index cards maintained in the headquarters city, each field office maintains at a Resident Agency a complete set of Security Index cards containing descriptions and, in most cases, photographs. In addition to the above, it is noted that copies of all security reports maintained at the Seat of Government are also maintained in the office of origin. (S)

The only advantage to the maintenance of a duplicate set of these reports at [redacted] is to have a set available in the event both the Seat of Government and the field office are destroyed by enemy action. However, in the event this occurs, pickups could be made by the field office utilizing the set of Security Index cards maintained in the [redacted] Resident Agency. (S)

FOR INSTITUTIONS
SEE FILE *Orgs*
TO DISSEminate INFORMATION AS

Memorandum for The Director

Feasibility of Filing Reports at [redacted]

Adequate space exists at [redacted] for the storage of these reports. However, in addition to the administrative difficulties involved caused by constant changes in the Security Index, the initial cost is estimated to be \$5,225 for file cabinets plus \$4,700 cost in pulling the reports from Bureau files. Maintenance cost thereafter is estimated at \$1,762 annually plus an additional expenditure of \$825 cost of cabinets needed in annual expansion. (S)

Executives Conference Recommendation

Messrs. [redacted] and [redacted] recommended that these reports not be sent to [redacted]. They feel that there is sufficient safeguard in duplicate reports being maintained in the office of origin and at the Seat of Government and that, from an operational standpoint, Security Index cards now at [redacted] and in a Resident Agency of each field office would permit the necessary action to safeguard the internal security of the country in the event of an emergency. They further feel that any condition so serious that both Washington and a field office are bombed out would be of such serious nature that the need for these reports in that particular city would be completely secondary. In addition, they felt that the cost and time involved would not be warranted. (S)

[redacted] and [redacted] felt that the Bureau should have the proper tools to work with and that, if both the Bureau and a field office are bombed out, we should have reports to present to hearing boards. They felt that the cost involved is not prohibitive and recommended that action be taken to place a duplicate set of these reports at [redacted]. (S)

Memorandum for The Director

In the event the Director agrees with the majority, no effort will be made to file duplicate sets of these reports at [REDACTED]

(S)

**Respectfully,
For the Conference**

TO : -

M
FROM :SUBJECT: SUGGESTION #424-56
RECORDS SECTION STREAMLINING COMMITTEE

XILES ON

SUGGESTION: Mrs. Consolidation Unit representative of the above committee, has suggested that when the Consolidation Unit separates a file containing Security Index subjects (majority of separations concern husband and wife) into two separate files, that the new files not be sent automatically to the Subversive Control Section of the Domestic Intelligence Division to determine if subject is on the Security Index. She proposes that Subversive Control Section be contacted and if subject is on Security Index, a routing slip would be directed to Subversive Control Section inquiring if file should have an orange cover (file cover used to readily identify files which should be evacuated in case of an emergency), and file would be returned to file. If subject is not on Security Index, files would also be immediately returned to file.

PRESENT PROCEDURE: After separation of file containing Security Index subjects, a routing slip is attached to new files and forwarded to Subversive Control Section inquiring if orange cover is desired on new files. Under this procedure, it is necessary to transfer files and transport same to Subversive Control Section.

ADVANTAGES: (1) The elimination of steps of transferring and delivering files. (2) Files would be returned to cabinets sooner, thus eliminating potential locators.

DISADVANTAGES: None.

SAVINGS: Impossible to convert to monetary savings. Savings will be slight however, as volume of this type of separation is very small.

CONCLUSIONS: Suggestion has merit. SA _____ of the Subversive Control Section of the Domestic Intelligence Division was contacted and he advised suggestion agreeable to them providing we assure that necessary contact is made. Suggestion is being adopted and placed into effect.

SUBJECT: EMERGENCY DETENTION PROGRAM
REQUEST FOR ADDITIONAL FORMS

DATE: 2/3/56

CLASSIFICATION
CONFIDENTIAL

Reference is made to Bureau letter to Albany dated 10/31/55 under the caption "WAR PLANS - FIELD RELOCATION, SECURITY INDEX AND TRANSPORTATION OF CRYPTOGRAPHIC MATERIAL."

In conformity with the instructions contained in this letter, a sufficient supply of Detcom forms has been forwarded to the Canandaigua Resident Agency, Canandaigua, New York, along with the extra set of Security Index cards so that this office will be able to operate in the event that the Buffalo Field Office is rendered inoperative by reason of enemy action. In addition, five copies of a Manual which contains complete instructions with regard to the operation of the Detcom Program have been placed with the above forms at the Canandaigua Resident Agency. This material is being maintained in a safe type file cabinet.

With regard to the supply of forms maintained by this office, it is requested that the Bureau furnish to Buffalo, 750 copies Form FD-169, and 230 copies Form FD-167.

It is believed that with the receipt of these forms this office will be in a position to have sufficient forms both in Buffalo and in the alternate office to take care of any reasonable increase in the number of Security Index subjects in this office.

Proposed Form

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: February 2, 1956

FROM : *Spurlock, Wm. - L.W.*SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
BufileSYNOPSIS:

Each month, we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications and . Status of these cases as of January 31, 1956, is set forth herein.

In January, there was a decrease in pending active matters in the entire field in the security classifications from 15,533 to 15,079. Delinquent matters decreased from 2,620 to 2,071. The percentage of delinquent matters decreased from 16.8% to 13.7%.

Letters are being sent to the large offices indicated by asterisks on page four and to the smaller offices indicated by asterisks on page five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the February, 1956, administrative reports.

Memorandum for Mr.

DETAILS:

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The January, 1956, administrative reports from all offices reflect that the total pending active matters in the classifications decreased from 15,533 to 15,079. The delinquent items decreased from 2,620 to 2,071. The percentage of delinquent matters decreased from 16.8% to 13.7%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

Classification	TOTAL PENDING MATTERS				
	CLASSIFICATIONS				
	ALL FIELD DIVISIONS

Letter to SAC, Albany

YELLOW: Memo from Mr. ████████ to Mr. ████████ 2/20/56
discusses a request from Defense for identities
of key defense facilities in which Communists are
employed. Since we verify employment of SI subjects
at six-month intervals only, it is possible for
considerable time to elapse after the most recent
verification before the Bureau is informed of a
change of employment. In order to have the list of
key defense plants in which SI subjects are employed
in an up-to-date status, as well as to have the
identities of individuals employed therein in an
up-to-date status in the event Defense subsequently
asks for such a list, it is felt that an immediate
field-wide verification of employment should be
made in these cases. 591 employment verifications
involved.

STRICTLY CONFIDENTIAL
SAC LETTER NO. 56-9

FEDERAL BUREAU OF INVESTIGATION

February 21, 1956

WASHINGTON 25, D.C.

(A) BUPLANS - FIELD RELOCATION, SECURITY INDEX -- Reference SAC Letter 55-57Q. The Emergency Detention Program Survey placed in the selected resident agency for emergency use should be withdrawn and retained in headquarters city with similar documents. (S)

You should make available to the Senior Resident Agent at the resident agency wherein the Security Index is retained a list of field office relocation sites, their telephone numbers and the means of contacting the Bureau relocation site in an emergency. This list must be kept current at all times. (S)

Your Buplans should be amended to reflect the changes brought about by these instructions. (S)

2/21/56
SAC LETTER NO. 56-9

(B) SUPPLIES AND EQUIPMENT - BACK ORDERS -- Effective as of March 1, 1956, items ordered from the FBI Supply List that cannot be filled due to temporary stock depletion will be back-ordered or authority will be granted to purchase locally. (U)

When items are back-ordered you will be notified by the wording "BACK-ORDERED" Stamped in the Amount Del. Scheduled _____ Days" Column. (U)

Once an item has been back-ordered it will not be necessary to reorder in view of the fact shipment will be made immediately upon receipt. (U)

2/21/56
SAC LETTER NO. 56-9

(C) TRANSFERS - CLERICAL -- In order to avoid any delay in effecting transfers of clerical employees it is desired that, when advising the Bureau of an employee's desire for transfer from Seat of Government to field, from field to Seat of Government or from field office to field office, the following information be furnished: (W)

59 FEB 29 1956

SEARCHED

INDEXED

FILED

2/21/56

UNRECORDED
2/21/56

1. Office or offices to which an employee desires transfer (do not merely state any southern office or an office in Middle West, etc.). (u)
2. Reason for employee's request. Reason should be explored with employee and information included as to whether request is based on urgent hardship or whether alternate solution may be worked out. (u)
3. Whether you recommend transfer. (u)
4. Comments regarding employee's work and attendance record. No employee will be considered unless it clearly appears that both are completely satisfactory because merit as well as hardship is a paramount factor. (u)
5. Whether employee is willing to defray expenses of transfer. (u)
6. Whether you are willing to release employee for transfer and whether workload of office necessitates a replacement if employee transferred. (u)
7. If replacement necessary, advise by what means you propose to secure a replacement; namely, whether you wish to request authority to recruit locally or if you will request authority to hire individual from your Eligibility List. (u)

In handling an employee's request for transfer, the employee should not be misled into thinking his chances for a transfer are favorable before the matter has been considered by the Bureau.

Very truly yours,

John Edgar Hoover

Director

~~SECURITY INDEX CARD STATISTICS~~

There are 12,915 persons represented in the security index (as of February 15, 1956). Of the total, 11,409 or 88.3 percent are communists.

The race of Chinese in the index is now shown separately in the race breakdown on the enclosed table.

A detailed table is enclosed in duplicate. The table shows as of February 15, 1956, the distribution of the subjects by field office, nationalistic tendencies, dangerousness, sex, race and citizenship. Also, the number on "special lists" are shown. A key to abbreviations is enclosed.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: March 9, 1956

FROM :

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
BufileSYNOPSIS:

Each month, we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications and . Status of these cases as of February 29, 1956, is set forth herein.

In January, there was an increase in pending active matters in the entire field in the security classifications from 15,079 to 15,431. Delinquent matters decreased from 2,071 to 1,712. The percentage of delinquent matters decreased from 13.7% to 11.9%.

Letters are being sent to Chicago and Indianapolis, indicated by asterisks on pages four and five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the March, 1956, administrative reports.

Memorandum for Mr.

DETAILS:

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices' and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The February, 1956, administrative reports from all offices reflect that the total pending active matters in classifications increased from 15,079 to 15,431. The delinquent items decreased from 2,071 to 1,712. The percentage of delinquent matters decreased from 13.7% to 11.9%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI
FROM : SAC, SAN FRANCISCO
SUBJECT: BUPLANS - FIELD RELOCATION
C SECURITY INDEX

DATE: 3/7/56

Re SAC Letter 56-9.

SAC Letter 55-57Q sets forth instructions to the Field pertaining to placing an additional set of Security Index cards at a Resident Agency affording the utmost security and one in which the Bureau has complete control of the space. This letter further instructs that a copy of the Emergency Detention Program Survey be maintained with the additional set of the Security Index Cards.

Bulet to SAC, Albany, 10/31/55 entitled "War Plans - Field Relocation, Security Index and Transportation of Cryptographic Material," instructed that in connection with the above, the Field should also place a sufficient supply of the following forms, in order to be in a position to operate, with the additional set of Security Index cards, should that become necessary during an emergency.

Form FD - 167, Apprehension Notice and Register
Form FD - 168, Receipt for Property
Form FD - 169, Receipt for Apprehended Person
Form FD - 170, Consent of Owner or Occupant to Permit Search of Premises
Master Warrant of Arrest
Master Search Warrant
Presidential Warrant of Arrest
Presidential Search Warrant.

SAC Letter 56-9 instructs that the Emergency Detention Program Survey placed in the selected Resident Agency for emergency use, should be withdrawn and retained in Headquarters City with similar documents.

The Bureau is requested to advise whether instructions set forth in SAC Letter 56-9 should be construed to include removal of the forms set forth in Bulet to Albany, 10/31/55, from the selected Resident Agency together with the Emergency Detention Program Survey or whether it is the Bureau's desire that these forms continue to be maintained with the additional set of Security Index cards at the selected Resident Agency.

United States Department of Justice
Federal Bureau of Investigation

AIR MAIL - REGISTERED

Date: March 20, 1956

To: Director, FBI

From:

Subject: SECURITY INDEX SUBJECTS
TRAVELLING ABROAD

Remylet March 19, 1956, forwarding a list of individuals residing in Canada who are believed to be included in the Security Index and asking that this list be checked to determine if it was correct as of the date of the letter.

Bureau letter dated March 15, 1956, captioned

Security matter - C" advised that was removed from the Security Index on August 1, 1955. The name has therefore been crossed off the list of Security Index subjects in Canada, copies of which were forwarded with my referenced letter and it is suggested that his name also be deleted from the list in the possession of the Bureau. No advice is of course necessary to this office concerning [redacted] present status.

The Security Index count as of today is

12,926.

ACTION:

None. This is for your information.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: March 23, 1956

FROM : *[Signature]*SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS — Genl.
• Bufile.

Section 87-D of the Manual of Instructions contains detailed instructions with regard to the necessity of developing admissible and convincing evidence of a subject's knowledge of the revolutionary aims and purposes of the Communist Party. Among sources of such evidence are statements made by the subject or statements made by Communist Party leaders at meetings attended by the subject when such meetings are covered through the use of informants.

The Bureau has noted an increasing tendency on the part of the field to merely report a subject's attendance at Communist Party meetings without reporting any information as to what transpired at such meetings even though it is apparent in many cases that informants were present and in a position to report on the details of the meetings. In order to properly evaluate a subject's knowledge of the aims and purposes, his potential dangerousness, and his activities in advancing the program of subversive organizations with which he is affiliated, it is essential that reports contain all pertinent information. It is felt that our instructions with regard thereto should be reiterated at this time.

RECOMMENDATION:

If you approve, there is attached a proposed SAC Letter.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. [REDACTED] *A.M.S.*

list

DATE: March 20, 1956

FROM : Mr. [REDACTED]

of B
SUBJECT: SECURITY INDEX LIST
Bufile.

general

The Security Index list as of March 19, 1956, has been prepared. One copy is attached hereto for transmittal to the SAC, Quantico, for retention in his personal custody with the other vital records maintained at the FBI Academy.

RECOMMENDATIONS:

(1) It is recommended that this memorandum and attached list be forwarded to the SAC, Quantico, marked "Personal and Confidential - Registered, Return Receipt Requested." *first 3-26-56 - fob*

PP

(2) It is further recommended that, upon receipt, the SAC, Quantico, place the attached list with the other vital records maintained at Quantico, personally destroy by burning the old Security Index list in his possession, and note hereon that such action has been taken.

destroyed 3/26/56

O
Genl.
(F) SECURITY INVESTIGATIONS OF INDIVIDUALS -- In connection with security investigations of individuals, the Bureau has stressed the necessity of developing and reporting admissible and convincing evidence that a subject knows the aims and purposes of the subversive organization with which he is affiliated. It has been pointed out that mere proof of membership in or affiliation with such an organization is not sufficient to prove such knowledge.

Among the principal sources of evidence of this nature are statements made by a subject or by responsible officials of the subversive organization in the subject's presence at organizations classes or meetings expounding the organization's doctrine. However, the Bureau has noted an increasing tendency on the part of the field in reporting a subject's attendance at a meeting of a subversive organization to omit information as to what transpired at such meetings even though it is apparent in many cases that informants were present and in a position to report the details of the meeting.

In order to properly evaluate a subject's knowledge of the aims and purposes, his potential dangerousness, and his activities in advancing the program of the subversive organization with which he is affiliated, it is essential that reports contain all pertinent evidence tending to establish the above. You must insure that informants who are in attendance at various meetings of subversive organizations are carefully interrogated as to the nature of the meetings and, where pertinent in individual cases, such information should be reported.

Very truly yours,

John Edgar Hoover

Director

UNITED STATES DEPARTMENT OF JUSTICEEMPLOYEE SUGGESTION *# 606-56*

Date: March 5, 1956

To: Director, FBI

From: SA

Division of assignment: Detroit

SUGGESTION: That a form similar to the attached be made available for field use in Security type cases.

SUBJECT REVIEW SHEET

Current practice or rule (include manual citation as well as facts):

None in use

Advantages of suggestion:

1. Ready reference for Agent and field supervision.
2. More efficient supervision of case.
3. Periodic review of contents of file.

aa

Disadvantages of suggestion:

1. Time consumed in posting information.

Recommendations and comments of Division Head: Although some assistance could be rendered by the recommended form, it is not believed that it is justified at the present time. A number of items would have to be constantly subject to change and other items might not necessarily apply in all cases.

Mark opposite each item the number of the serial & page in which the information appears. Although these items are regarded as nonvariable, changes may be noted by adding the new serial and page number and crossing out the old.

From: Liaison Representative
Ottawa, Canada

Subject: SECURITY INDEX/SUBJECTS
TRAVELLING ABROAD

Bureau letter dated October 20, 1955, bearing
the above caption forwarded a list of individuals residing
in Canada included in the Security Index current as of
October 15, 1955.

A letter captioned "Subjects of Bureau Investigations
who are U.S. Citizens Residing in Canada, Security Matter - C,
SWP; Internal Security - R," dated March 19, 1956, is being
forwarded to the Bureau with a list of U.S. Citizens residing
in Canada who are not on the Security Index but who have been
subjects of prior Bureau investigations. It was mentioned in
that letter that the U.S. Consulate, Montreal, had inquired
relative to two subjects contained on the list and that
therefore the Bureau may desire to check to determine if
information had in each instance where required been forwarded
to the Department of State on these subjects. As of possible
interest in connection with this matter, it is believed that
from the information contained in the files of the ~~Security~~
Office, Ottawa, it is determined that the Bureau has been

2177

correspondence with the Office of Security, Department of State, relative to the following subjects included in the Security Index and presently residing in Canada.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

ABG/13/56

DATE: April 12, 1956

FROM :

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
Bufile

SYNOPSIS:

O Security Index - General ✓

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications. Status of these cases as of March 31, 1956, is set forth herein.

In March, there was an increase in pending active matters in the entire field in the security classifications from 15,431 to 15,436. Delinquent matters increased from 1,712 to 1,799. The percentage of delinquent matters increased from 11.1% to 11.6%.

Cleveland

Letters are being sent to Boston, El Paso, and Phoenix, indicated by asterisks on pages four and five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the April, 1956, administrative reports.

Memorandum for Mr.**DETAILS:**

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The March, 1956, administrative reports from all offices reflect that the total pending active matters in classifications increased from 15,431 to 15,436. The delinquent items increased from 1,712 to 1,799. The percentage of delinquent matters increased from 11.1% to 11.6%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

Memorandum for Mr.

Letters to the Field

Letters are being sent to Boston, El Paso, Cleveland and Phoenix, indicated by asterisks on pages four and five herein, commenting upon existing delinquency and pointing out the necessity of bringing security cases to and maintaining them at proper levels.

Security Index List NUMBER 2780

Assistant Attorney General

DATE April 17, 1956

TO: Director, FBI

SUBJECT: SECURITY INDEX LIST

If
There is attached hereto a current list
of the names of the individuals maintained in the
Security Index. Names included in the main portion
of the list are arranged alphabetically. Those
individuals coming within four designated groups
are listed on separate pages. Following each
name is information reflecting the race, sex,
birth date, Bureau file number, and the Bureau
field office covering the residence of the
individual.

It is requested that this list be given
utmost security.

Enclosure

YELLOW: Espionage Section of the Special Section
not included. The four designated groups
are:

SUBJECT: ERRONEOUS IDENTIFICATIONS BY WITNESSES -
LOOSE PHRASEOLOGY IN REPORTING

Reference is made to SAC Letter 56-19 dated April 2,
1956, relating to the captioned matter.

In order to place more emphasis on the necessity of
eliminating erroneous identifications by witnesses, the use of
loose phraseology in reporting, and the necessity for accurate
documentations, appropriate changes for the Manual of Instructions,
Manual of Rules and Regulations, and FBI Handbook have been
prepared and are attached hereto.

RECOMMENDATION:

That the attached revisions be forwarded to the Training
and Inspection Division for approval.

(Typed March 29, 1956)

proposed changes to Section 87C, Page 6, Paragraph 3,
of Manual of Instructions

Re: SECURITY INVESTIGATIONS

Place period (.) after the word "organization" in the first sentence and delete the phrase "unless the original source is shown." Add the underscored sentence set forth below as the second sentence. The first two sentences of paragraph 3 should, therefore, read as follows: Extreme care should be taken to have all reports factually correct with regard to statements concerning affiliation or membership in a proscribed or subversive organization. Identification of suspected organizations or individuals with information of a possible subversive nature must be in crystal-clear, unmistakable terminology, showing exact basis for such identification, plus corroboration for same whenever possible.

UNRECORDED
4-2-56

Typed March 29, 1956

Proposed Addition to Part III, Page 163, of FBI Handbook

Re: SECURITY INVESTIGATIONS

The investigation should be directed toward establishing the dangerousness of the subjects by information of an evidentiary nature. "Pin down" all general statements to specifics. Identification of suspected organizations or individuals with information of a positive subjective nature must be in crucial-clear, unmistakable terminology, showing exact basis for such identification, plus corroborati for same wherever possible.

SUBJECT: SECURITY INDEX
• Bufile.

U-16-S

The following is a report on the status of the Security Index since the last count was furnished to you on March 9, 1956.

<u>Week of:</u>	<u>New Cards Added</u>	<u>Cards Cancelled</u>	<u>Net Change</u>
March 12-16	19	17	+ 2
March 19-23	23	19	+ 4
March 26-30	17	9	+ 8
April 2-6	10	13	- 3
April 9-13	20	10	+10
	89	68	+21

During the above-mentioned period, there was a net increase in the Security Index of 21.

For your information, during the preceding four-week period, 74 cards were added and 65 cards were cancelled, a net increase of 9.

The Security Index count as of today is 12,941.

ACTION:

This is for your information

~~CONFIDENTIAL~~

April 17, 1956

lpc

LIAISON WITH PASSPORT OFFICE,
DEPARTMENT OF STATE
Bufile.

We have been supplying periodically for the confidential use of the Passport Division, Department of State, a current list of the names of top functionaries and key figures for use as a check list by that division before issuing U.S. passports. These lists have been delivered personally to Mr. [redacted], deputy director of the Passport Office, with the request that the list be held in the strictest confidence by him at all times and maintained in his office safe.

Memoranda from Mr. [redacted] to you dated April 10 and April 13, 1956, reflect an internal conflict between the Passport Division and the Office of Security, Mr. [redacted], as to which office will retain security files and related material presently being kept in the Passport Office. The latest memorandum, dated April 13, 1956, reflects that, according to Miss [redacted], director of the Passport Office, this matter is a long way from being settled at this time.

RECOMMENDATION:

(1) It was contemplated that a list of top functionaries and key figures would be furnished to the Passport Office this month but, in view of the uncertainty as to where this list would be maintained, it is recommended that no list be furnished until this matter is settled within the State Department. In this connection, we are not committed to furnish the Passport Office this list but have done so since December, 1955, as result of a request from Mrs. [redacted], then chief of the Passport Office.

UNRECORDED
4-17-56

Memorandum for Mr. ...

(2) It is further recommended that this matter be followed through Liaison and, when the question is finally settled, we will again consider making available lists of key figures and top functionaries.

DATE: April 20, 1956

FROM :

Mr. [REDACTED]

SUBJECT:

SECURITY INDEX LIST

Bufile

The Security Index list as of April 13, 1956,
has been prepared. One copy is attached hereto for
transmittal to the SAC, Quantico, for retention in his
personal custody with the other vital records maintained
at the FBI Academy.

RECOMMENDATIONS:

(1) It is recommended that this memorandum
and attached list be forwarded to the SAC, Quantico,
marked "Personal and Confidential - Registered, Return
Receipt Requested." - Recd 4-24-56 - TPA

To be forwarded and filed in Bureau files
as requested and directed.

(2) It is further recommended that, upon
receipt, the SAC, Quantico, place the attached list
with the other vital records maintained at Quantico,
personally destroy by burning the old Security Index
list in his possession, and note hereon that such
action has been taken.

done 4/26/56

SUBJECT: SECURITY INDEX - Genl.
Bufile

Part III of the Attorney General's Portfolio provides for the apprehension of dangerous enemy aliens under certain conditions.

We presently have included in the Security Index 215 aliens. No special breakdown of these aliens is maintained at the present time. However, they are designated by nationality and we can, by obtaining the list of all aliens from the IBM records, separate the particular nationalities. In order that the identities of these individuals may be instantly determined in the event of an emergency in which Part III of the Portfolio may be invoked, the Subversive Control Section proposes to maintain an extra Security Index card as to aliens only (215) tabbed to show each subject's nationality. These cards would be maintained separate and apart from the alphabetical Security Index breakdown, broken down by nationality, and will be maintained only at the Seat of Government. By this means, when we are advised by the Department as to the countries declared to be enemy countries and ordered to effect the apprehension of dangerous enemy aliens of these countries, we would be immediately able to instruct the field as to the identities of those individuals to be apprehended.

Office Memorandum • UNITED STATES GOVERNMENT

TO :

DATE: May 3, 1956

FROM : The Executives Conference

SUBJECT: SECURITY INDEX - ~~CASES~~
VERIFICATION OF ADDRESSES
~~Bufile~~PLANT INFORMANT PROGRAM
~~Bufile~~AMERICAN LEGION CONTACT PROGRAM
~~Bufile~~

On May 2, 1956, the Executives Conference, consisting of Messrs. considered the question of whether Security Index cases should be opened and assigned for the purpose of verifying addresses of subjects and closed upon such verification.

Present instructions call for verifications of addresses to be handled through administrative ticklers with cases opened only when the subject has moved to an address in another division or his present whereabouts is unknown. This means of handling verifications was inaugurated in 1951, it being felt at that time that a considerable administrative burden would be placed on the field by opening and closing twice a year the then 15,000-plus Security Index cases. Since that time, the Security Index has been reduced to approximately 12,900 names, of which more than 1,000 are key figures and approximately 600 are employed in key facilities. Key-figure and key-facility cases are maintained in a pending inactive status and reports are submitted quarterly and semiannually respectively. An annual report is now required in all other Security Index cases (approximately 11,300) so that these cases are now opened once a year and verifications of addresses are made at that time. Consequently, the proposal to open cases for verification purposes would mean that approximately 11,300 additional cases will be opened per year as compared to approximately 30,000 which would have been necessary in 1951.

Memorandum for Mr.

EXECUTIVES CONFERENCE RECOMMENDATION:

The Executives Conference was unanimous in feeling that, under present conditions, the Security Index cases should be opened for the purpose of verifying addresses of the subjects and closed upon such verifications being accomplished. The administrative burden of opening these cases under today's conditions would be relatively light. It is noted that, in many instances, accomplishment of verifications requires intensive investigation, sometimes even physical surveillances. Therefore, the opening of the cases would more truly reflect the work necessarily being handled by Agents and would present a truer picture of the work load pending in an office.

An SAC Letter and appropriate Manual changes are attached.

STANDARD FORM NO. 64
Office Memorandum • UNITED STATES GOVERNMENT

DATE: April 30, 1956

TO :

FROM :

SUBJECT: SECURITY INDEX
VERIFICATION OF ADDRESSES

It is believed Security Index cases should be opened and assigned for the purpose of verifying addresses and closed upon such verification.

PRESENT PROVISIONS:

Manual of Instructions, Section 87-D, page 57, provides that verifications of addresses of Security Index subjects are to be handled by means of administrative ticklers and that cases are not to be reopened when only action necessary is such verification unless subject has moved to an address in another division or his present whereabouts is unknown. This provision was made to provide uniformity in the administrative handling of Security Index cases for verification purposes, it having been noted that previously some offices reopened and closed the cases for verification purposes, others handled the cases on a pending inactive basis, and still others followed the cases by use of an administrative tickler.

PRIOR CONSIDERATION:

The provision followed consideration of this matter by the Executives Conference on April 16, 1951, when the Conference split on the question of whether the cases should be handled through administrative tickler or through maintaining them in a pending inactive status. The Director approved handling through administrative ticklers. Those favoring this system felt that this was the simplest procedure permitting the proper follow-up in the handling of the cases and that any other system would show an untrue picture of the actual pending work in the field offices. It was pointed out that an administrative burden would be placed on the field by opening and closing the then 15,000 plus Security Index cases each six months, for a total of more than 30,000 cases opened per year.

Memorandum for Mr.

Those favoring maintaining the cases in a pending inactive status felt that this procedure would permit the cases to be closely followed in the field and would place a responsibility on the Agent to whom the case is assigned to properly channelize all information pertaining to the subject in the appropriate file. They also felt that considerable effort is necessary to accomplish verifications and that, in many instances, considerable investigation is required due to changes in either employment or residence of the subject.

NEW FACTORS:

Since this matter was so considered by the Executives Conference, changes have occurred in the volume and handling of Security Index cases.

- (1) The Security Index now contains only approximately 12,900 individuals.
- (2) More than 1,000 Security Index subjects are key figures and top functionaries and approximately 600 are employed in key facilities. Quarterly reports are required in top-functionary cases and semiannual reports are required in key-figure and key-facility cases. These are maintained in a pending inactive status, and are reopened when reports are due.
- (3) The field is now required to reopen the other Security Index cases annually for the purpose of submitting an annual report.

OBSERVATIONS:

From the above factors, it is evident that approximately 1,600 cases are now in a pending inactive status and approximately 11,300 cases are opened annually. The residence and employment addresses of subjects are, of course, verified during the course of these periodic investigations. From this, it can be seen that, if Security Index cases are opened for the purpose of verifying addresses and closed upon such verification, the total number of additional cases opened throughout the year would be approximately 11,300 (without regard to the fact that a few of these would be opened under present procedures because of lack of knowledge of present whereabouts).

Memorandum for Mr.

The administrative burden of opening the cases would be much less because of the factors stated above than it would have been when considered by the Executives Conference in 1951. In this connection, it should be noted that the New York Office then favored following verifications by an administrative tickler because of this administrative burden. The New York Office has now advised that, in view of the greatly lessened number of such cases, it has no objection to opening cases for verification purposes. New York and other offices have advised that, in frequent instances, verifications require intensive investigation, sometimes even physical surveillances. It is believed that the opening of these cases would more truly reflect the work necessarily being handled by Agents and would present a truer picture of work pending in an office. In addition, this would provide both a means of assigning responsibility to Agents and an incentive to those Agents to discharge such responsibility quickly and efficiently.

RECOMMENDATION:

It is recommended that Security Index cases be opened semiannually to accomplish verification of residence and employment of the subjects. If you agree, appropriate instructions to the field and appropriate Manual changes will be prepared.

DATE: May 10, 1956

FROM : *y*SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS
BufileSYNOPSIS:

Security Delinquency

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications. Status of these cases as of April 30, 1956, is set forth herein.

In April, there was a decrease in pending active matters in the entire field in the security classifications from 15,436 to 14,717. Delinquent matters decreased from 1,799 to 1,783. The percentage of delinquent matters increased from 11.6% to 12.1%.

Letters are being sent to Anchorage, Birmingham, Chicago, Phoenix and Springfield, indicated by asterisks on pages four and five herein, commenting upon their delinquent condition and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the May, 1956, administrative reports.

Memorandum for Mr.DETAILS:

Since December, 1951, we have been following, on a monthly basis, the 12 field offices having a large proportion of our pending security work, and since March, 1952, all offices. We have written letters to the 12 offices and to other offices where progress in reducing the backlog of work and delinquency has not been satisfactory.

The April, 1956, administrative reports from all offices reflect that the total pending active matters in classifications decreased from 15,436 to 14,717. The delinquent items decreased from 1,799 to 1,783. The percentage of delinquent matters increased from 11.6% to 12.1%.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions, as of December 31, 1951, and the progress for the last four months.

FROM :

SUBJECT: SECURITY CASES
NEW YORK OFFICE

On July 21, 1953, we discontinued the use of 0-1 forms (the forms used for requesting advice from the field as to the status of a case) in routine security cases in the New York Office because of the large backlog and delinquency in such cases in that office. As of August 1, 1953, shortly after the moratorium on the use of Forms 0-1, the New York Office was 70% delinquent in cases in security classifications. This represented 4,245 delinquent matters out of a total of 6,126 cases.

The delinquency in security classifications in the New York Office has steadily declined and as of March 31, 1956, the delinquency percentage stood at 12.2% based on a total of 499 delinquent items out of a total of 4,097 cases in the above classifications.

In my memorandum dated January 6, 1956, it was recommended that the moratorium on sending 0-1 forms to New York in routine security cases be continued until after completion by New York of the Summary Report Program. This Program was completed on schedule, May 1, 1956.

34-444

RECOMMENDATION:

It is recommended that we again institute the practice of following New York in routine security cases by the use of Form 0-1.
